

# KLASERIE

*Conservation  
Experience*

*- Guided by passion - Driven by the wild -*

5-DAY ITINERARY

# Magagazi Adventure Co.

Nestled within the **Klaserie Private Nature Reserve**, part of the Greater Kruger ecosystem in South Africa's Lowveld, this immersive conservation experience offers a rare behind-the-scenes look at life in a protected wilderness. Each day includes a morning and afternoon game drive with experienced guides, complemented by insightful talks from industry professionals: carnivore conservationists, wildlife veterinarians and anti-poaching units working on the frontlines.

Guests enjoy all meals included - hearty breakfasts, relaxed bush lunches, wholesome dinners and refreshments throughout the day, leaving space to fully absorb the experience. Time between activities allows quiet reflection, wildlife viewing from camp and meaningful conversations around the realities of conservation.

This experience is ideal for bush lovers who want more than just game viewing – for those curious about how conservation truly works, why it matters in South Africa, and how each effort contributes to protecting these wild places for the future.

## A TYPICAL DAY

05:00

Wake up call  
and coffee

05:30-09:30

Morning game  
drive

10:00

Breakfast at  
camp

11:00-14:00

Relaxation or  
conservation talk

14:30

Lunch at  
camp

15:30-19:30

Afternoon  
game drive

20:00

Dinner at  
camp

## EXPLORING THE BUSH THROUGH AN ECOLOGICAL LENS

A conservation journey through the bush is a deep dive into the interconnected world of nature. Together, we'll explore how every element, from towering trees to the tiniest insects, plays a role in keeping ecosystems balanced. You will gain a new perspective on the bush through:

- **Ecological Insights**

Understanding how habitats function, how species depend on each other and why conservation matters.

- **Mammal Behaviour**

Observing animal interactions, predator-prey dynamics, and the subtle ways mammals communicate and adapt.

- **The World of Birds**

Discovering the incredible diversity of birdlife, their calls, nesting habits and migration stories.

- **Arthropods, Amphibians & Reptiles**

Appreciating the often-overlooked creatures that form the backbone of healthy ecosystems.

- **Tracks & Signs**

Learning how to read nature's clues – footprints, scat, feeding marks and trails – to piece together the hidden stories of the bush.

# Magagazi Adventure Co.

## GENERAL TRAVEL INFORMATION

- **Weather & Rain**

Temperatures can range from 10-25°C in winter to 20-35°C in summer. Rainfall is mostly in the form of magnificent, electrical thunderstorms during summer evenings.

- **Game Viewing**

Wildlife is present year-round, but visibility varies. Winter offers easier spotting of animals due to less vegetation. Summer brings new-born animals and migratory birds, adding vibrancy to the bush.

- **Malaria Risk**

The area is low malaria-risk, so all guests are advised to consult a healthcare professional regarding prophylactics before travel. Insect repellent and protective clothing are recommended, especially during dusk and dawn.

- **Currency & Payments**

South African Rand (ZAR) is the local currency. Credit/ debit cards are widely accepted at lodges, but carrying some cash for small purchases is useful.
